

Topic Title: Eggs, Let's Get Cracking

To engage the children we will:

- Cook a variety of egg dishes
- Design and make a container to protect an egg
- Set up a veterinary role play area

What the children will know by the end of the topic:

- That a variety of animals hatch from eggs and these animals can be grouped in different ways
- How to care for chicks
- How to use eggs in cooking
- How to design and select materials for a purpose
- How to find answers to questions by using a range of sources e.g. books, computers, film, photographs

What the children will learn to do during the topic:

- Explore the lifecycle of birds, insects and reptiles as well as other animals
- Observe the chicks and provide for their needs
- Design and make a container to protect an egg
- To use the features of a non-fiction text to find information
- Observe changes using a time lapse camera
- We will be continuing to observe and discuss seasonal changes.

The memorable experience(s) at the end of the topic will be:

To observe baby chicks hatching and care for them in our classrooms.

To support your child's learning with this topic you could:

- Cook with eggs together at home
- Visit the library and find out about the lifecycles of animals that lay eggs
- Go on a bug hunt in your garden or local park
- Listen to and read with your child every day

PE Lessons

1B – Weds & Fri

1L – Tues & Thurs

1SJ – Wed & Fri

Please ensure your child's PE kit is in school.
