

Topic Title: Amazing Me!

To engage the children we will:

- Experience an interactive theatrical production on the human body.
- Use and create exciting and interactive models of the human body.
- Encourage children to follow their own lines of enquiry to answer questions.

What the children will know by the end of the topic:

- The names and location of major internal organs.
- The purpose and functions of the internal organs.
- The scientific names for the main bones in the skeleton and understand their function.
- How the digestive system works.
- How babies are made and born.
- The components of a healthy balanced diet and different food groups.

What the children will learn to do during the topic:

- Use a selection of sources to research questions on human body.
- Explain how the human body works and functions.
- Design and make healthy meals including a fruit smoothie.
- Create portraits, taking inspiration from Pablo Picasso.
- Follow and create various exercise circuits.
- Pronounce words and phrases in Mandarin related to the topic.

The memorable experience at the end of the topic will be:

To lead the Year 2 children in a 'Fit for Life Day'

To support your child's learning with this topic you could:

- Read books about the human body.
- Discuss their learning about the human body.
- Create healthy meals and discuss ingredients.
- Visit art galleries such as the National Portrait Gallery with a focus on portraits.
- Visit museums with a focus on the human anatomy (such as the Wellcome Collection, the Hunarian Museum or the Science Museum).
