

Topic Title: Amazing Me!

To engage the children we will:

- Experience an interactive theatrical production on the human body.
- Use and create exciting and interactive models of the human body.
- Encourage children to follow their own lines of enquiry to answer questions.

What the children will **know** by the end of the topic:

- The names and location of the major internal organs of the body.
- The purpose and functions of those internal organs.
- The scientific names for the main bones in the skeleton and understand their function.
- How the digestive system works.
- What the different classification of living things are and what different habitats are like.
- The components of a healthy balanced diet and the names of the different food groups.

What the children will learn to **do** during the topic:

- Classify (sort) living things.
- Use a variety of resources to research information about the human body.
- Explain how the human body works and how it functions.
- Design and make a healthy meal.
- Design and make a prototype of food packaging.
- Create portraits, taking inspiration from Pablo Picasso.
- Follow and create various exercise circuits.
- Pronounce words and phrases in Spanish related to the topic.

The memorable experience at the end of the topic will be:

“Fit for Life Day” – The children will lead their parents/carers

To support your child’s learning with this topic you could:

- Read books with them about the human body.
- Discuss their learning about the human body.
- Create healthy meals together and discuss the ingredients.
- Visit art galleries such as the National Portrait Gallery with a focus on portraits.
- Visit museums (such as the Wellcome Collection, the Hungarian Museum or the Science Museum) with a focus on the human anatomy.

PE Lessons:

4F - Tuesday (Outdoor)
Wednesday (Indoor)

4S - Wednesday
(Outdoor) & Friday
(Indoor)

4B - Tuesday (Indoor) &
Wednesday (Outdoor)
